PROFILE

I am a D3 Information System graduate from Bina Sarana Informatika University with a high learning spirit and good adaptability. I have internship experience as a Web Developer and have been involved in digital project development. In addition to technical skills such as data management, programming, and interface design, I am also used to working in a structured manner, able to think analytically, and ready to face new challenges. I am committed to continuing to develop and provide the best contribution in whatever position I am in
